

# Build with Interlocking Bricks!

## Cost comparison - 2-room house (280 sq ft)

Interlocking Bricks:

1800 - 2200 rs / sq ft

Fired bricks:

2300 - 2700 rs / sq ft

- Less material & labour
- Nice finish  
*(no need for plaster)*

- **25% Less cost**
- **Earthquake Resistant**
- **High quality construction**
- **Approved** by Nepal Government
- **Green technology:** less CO<sub>2</sub> than fired bricks

*NABIN project (New and Affordable Building materials promoting Sustainability in Nepal) is working to promote the cost-effective and eco-friendly Interlocking Brick technology in Nepal. The project is funded by Nordic climate facility and implemented by Dan Church Aid, Practical Action and Build up Nepal*
